On the “never a dull moment” front, this just in from Kathy. I was planning on talking to you tomorrow about this, but since Kathy passed along written confirmation below re: USFS going to ROD in 30 days, I don’t want to sit on this for a second. I.e., Rosemont is now in crunch-time mode. Let’s discuss tomorrow; lots of moving pieces. And Elaine’s around.

In a nutshell, I think the issue all this tees up for us, practically speaking, is does EPA now comment on the USFS FEIS from a year-plus ago, which we held off commenting on (and what exactly do we say, of course). Or alternatively, do we simply not comment and leave the admin record alone, leaving our EU-3 on the draft sitting out there. But do get back to enjoying a victory lap in Olympic Stadium on the FERC letter before you spend another second thinking about tomorrow’s work. Go NCD/OFA/OECA.

Ms. Strauss: I would like to speak to you about the status of the Rosemont ROD. I promised your predecessor that we would provide a 30 day notice to EPA before signing the ROD. A letter to that effect will be in the mail to you tomorrow. Please call me if you have questions or if I can be of assistance.
